

Designing a Destination Downtown Jordan

The purpose of the Façade Improvement Program is to establish a fund to assist building owners with the implementation of the vision for Jordan's

Downtown, which is to encourage continuation of a viable downtown by allowing prime retail sales and service uses, office, entertainment facilities, public and semi-public use, and in special circumstances, residential use; and to preserve and build on the historic character of the downtown using the historic and natural resources available to create a tourist destination as well as to provide a unique blend of retail and service businesses for the convenience of local residents.

Matching Grant Program

Downtown Jordan

In order to assist building/business owners in implementing "Central Business District Design Standards" Jordan's Economic Development Authority (JEDA) is currently offering a matching grant program for owners/occupants of businesses in Jordan's historic downtown. Funds will vary and are available on a first come-first serve basis, while funds remain.

Matching grants are available to properties within the C-2 Zoning District which are making visible changes to the facades or exteriors of buildings including parking and landscaping improvements as described in the Jordan Central Business District Design Standards Manual.
